**Map Description:**  
 This map is for illustrative purposes only. It represents the water allocation percentage for oil and gas activities of each proponent from 2009 to 2014 in the Tulita district of the Sahtu Settlement Area. The table shows the amount of water allocated to each activity and the total amount required in cubic metres by each proponent.

This map is not a legal document and should not be treated as such.

This map was created by the Sahtu Land and Water Board (SLWB). Breakdown maps of each proponent are available. For further information, please contact:
